INTELLIGENCE WITH STYLE

The 801 series is designed with you in mind. It will be the only filter system you would ever need in your home. It will bring your family a wonderful and healthy life style.

The unique body design brings technology and health to your home.

The LED touch panel gives all the information you need for a healthier life.

The filter change is easy with our patent design. You are just a twist away from filter change.

NATURAL AND PURE

Water is the most important element in human body. To maintain this elements in a great condition is the key to be healthy. LanShan products helps to filtrate drinking water and provide the tastiest water to our body.

HEALTHY FOOD

Washing fruits and vegetables with water from LanShan not only cleans them but also brings out their own sweetness.
